

ADOBE® LIVECYCLE® ES

The Adobe solution for a better management of the company processes

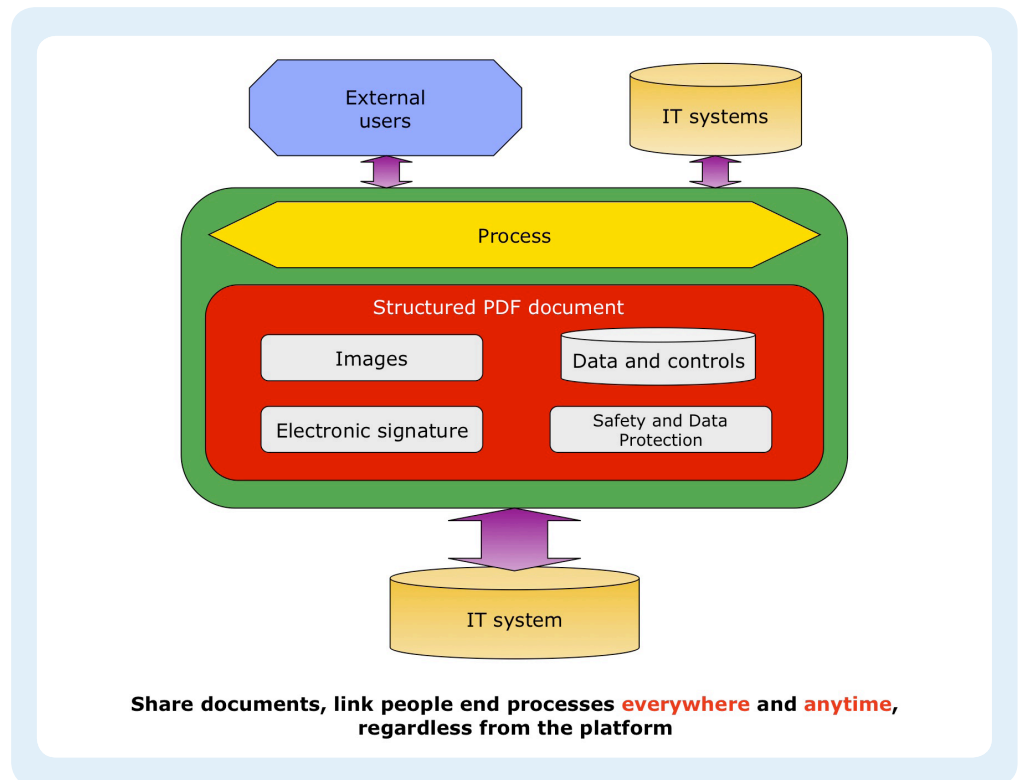

- ✓ Short time ROI
- ✓ Processes simplification and acceleration
- ✓ End-to-end process automation
- ✓ Data entry
- ✓ Processes organization
- ✓ Documents and forms generation
- ✓ Data safety, integrity and genuineness

All sizes organizations continuously require business processes improvement, their automation, inefficiencies removal and time reduction. In this context, the document is evolving from an object or content to be archived to a real company business processes engine. As an example the on-line forms allow to overcome the paper documents limitations and become the focus of essential authorization processes required to complete operating and strategic flows and to implement inter and intra company processes.

The PDF document becomes interactive thanks to **Adobe LiveCycle® ES**, joining the usability and easiness features of a document to capability proper of the IT applications.

Adobe LiveCycle ES supports **data and documents integrated management** (PDF document image and data managed XML structure) and therefore:

- It simplifies applications creation and distribution reducing paper use, accelerating the decisional capability and guaranteeing the compliance with norms and rules.
- Using the Adobe PDF format, the outstanding standard for electronic documents exchange, it allows reliable communication and collaboration.
